

# Wufoo Form Generation

## Definition

Wufoo strives to be the easiest way to collect information over the Internet. The [HTML form builder](#) helps you create contact forms, online surveys, and invitations so you can collect the data, registrations and online payments you need without writing a single line of code.

## Stakeholders

**BO:** Kevin O'Brien  
**PO:** Kevin O'Brien  
**TO:** Kevin O'Brien

**Others:** BizDev

## Background

UMassOnline adopted Wufoo forms in an effort to create registration forms for the Speaker Series Events. It has also been used to collect help desk requests from campus administrators, to assist students and faculty, and to collect information from our campus stakeholders via forms and surveys.

## Utilization

Wufoo is currently being utilized by the UMassOnline Teams to capture information from our community regarding events, support, registration and general information.

## Community

Wufoo's community of users ranges from Educational Facilities to companies like Amazon.com and Kodak. Wufoo partners with several companies to create connectors so their forms can be embedded natively into other software, like Confluence. See [this page](#) for more information.

## Licensing

5 Users  
Unlimited Forms  
Unlimited Reports  
Maximum Fields \*  
3,000 Entries / Month †  
1GB Storage  
SSL Encryption  
Payment Integration

## Support

[General Technical Support for Wufoo is provided by the vendor.](#)

## Training

[All training is available online at Wufoo.com](#)

## Cost

System/Service	Cost
Wufoo (Hosting/Application includes Support) Yearly	\$359.40
Total Cost	\$359.40

## Current Status
